International Digital Exhibition Vision 2018 is open to all photo enthusiasts; however, an entry may be rejected when the organizer Photo Club Vision, in its reasonable discretion, believes the entry does not conform to the exhibition rules and conditions.

- Entries must be originated as photographs (image-captures of objects via light sensitivity) made by the entrant on photographic emulsion or acquired digitally. By virtue of submitting an entry, the entrant certifies the work as his own and permits to reproduce all or part of the entered materials and other information free of charge for publication, low-resolution posting on websites, and/or display in media related to the exhibition. The Organizer assumes no liability for any misuse of copyright.
- Note: Entrants who indicate that their images may not be reproduced or used or inclusion in audio-visuals of the exhibition will not be eligible for awards and could be subject to disqualification.
- Images may be altered, either digitally or otherwise, by the maker. All final works must be photographic digital files. Titles of the pictures will not generally be read at the time of judging unless desired by judges.

FIAP Document 2014/317 art.II.7.F: “With the sole act of submitting his/her images or files to a salon under FIAP Patronage, the entrant accepts without exception and with no objection that the submitted images can be investigated by FIAP to establish if these obey to FIAP regulations and definitions even if the entrant is not a member of FIAP; that FIAP will use any means at its disposal for this undertaking; that any refusal to cooperate with FIAP or any refusal to submit the original files as captured by the camera, or failure to provide sufficient evidence, will be sanctioned by FIAP and that in case of sanctions following the non compliance with FIAP regulations, the name of the entrant will be released in any form useful to inform the breaches of the rules. It is recommended to leave the EXIF data in the submitted files intact in order to ease eventual investigations. “

If at any time, it is determined in the reasonable discretion of the exhibition organizer or the judges before, during, or after the judging of an exhibition that an entrant has submitted entries where one or more images may fail to comply with these Conditions of Entry, including the stated definitions, the exhibition organizers reserve the right to delete the entry from the exhibition and void any or all acceptances or awards in connection with the exhibition. Fees may be forfeited or refunded in these circumstances. The entrant acknowledges that the decision of the exhibition organizers or the judges is final.

In order to ensure that images comply with the Conditions of Entry and definitions, the exhibition organizers may carry out reasonable measures to verify that:

- a) the images are the original work of the entrant and
- b) the images comply with the rules and definitions as set out in these Conditions of Entry.

These steps include, but are not limited to, questioning any entrant, requiring the submission of RAW files or other digital files representing the original capture of the submitted image(s), confronting the entrant with evidence that one or more submitted images fails to comply with the Conditions of Entry (also known as Entry Rules), and offering the entrant a reasonable opportunity to provide counter evidence to refute the exhibition organizer’s evidence by a set deadline. Such entries that are not cleared or are still questionable after the entrant has presented evidence may be considered in breach of these Conditions of Entry, and declined. Such entries may be referred to PSA for further investigation of possible ethics violations.

PSA retains the right to investigate in any way all complaints/suspicious of breaches of entry conditions, impose sanctions if deemed necessary, void the

acceptances of any image found to violate the PSA rules, include the entrant's name on the list of sanctions provided to Exhibitions, and share such investigations with FIAP. Entrants automatically agree to these terms by the act of entering the Exhibition and agree to cooperate with any investigation.

DEFINITIONS OF BLACK AND WHITE PHOTOGRAPHY (MONOCHROME)

An image is considered to be Monochrome only if it gives the impression of having no colour (i.e. contains only shades of gray which can include pure black and pure white) OR it gives the impression of being a grayscale image that has been toned in one colour across the entire image. (For example by Sepia, red, gold, etc.) A grayscale or multicoloured image modified or giving the impression of having been modified by partial toning, multi toning or by the inclusion of spot colouring does not meet the definition of monochrome and shall be classified as a Colour Work.

A black and white work toned entirely in a single colour, will remain a monochrome work able to stand in the black and white category; such a work can be reproduced in black and white in the catalogue of a salon held under PSA and FIAP patronage.

On the other hand, a black and white work modified by a partial toning or by the addition of one colour becomes a colour work (polychrome) and will stand in the colour category; such a work requires colour reproduction in the catalogue of a salon held under PSA and FIAP patronage.

DEFINITIONS OF TRAVEL (COLOUR/MONOCROME)

A Photo Travel image expresses the characteristic features or culture of a land as they are found naturally. There are no geographic limitations. Images from events or activities arranged specifically for photography, or of subjects directed or hired for photography are not appropriate. Close up pictures of people or objects must include features that provide information about the environment.

Techniques that add, relocate, replace or remove any element of the original image, except by cropping, are not permitted. The only allowable adjustments are removal of dust or digital noise, restoration of the appearance of the original scene, and complete conversion to greyscale monochrome. Other derivations, including infrared, are not permitted. All allowed adjustments must appear natural.
